

# Morgan Associates

Morgan Associates, established in 1981 remains an independent partnership and has an excellent and growing reputation for providing a quality consulting civil and structural engineering service. Based in Dundee, we successfully deliver projects on behalf of clients throughout the UK with Scotland featuring as the dominant market for our services. The breadth of project work handled ranges from basic structural surveys through to £40M+ developments.

We have the resources and commitment required to ensure excellent professional relationships with our clients and partners and we remain dedicated to making continuing investment in our people and facilities to sustain and build upon our position.
